

SANDHURST PRIDE

- Take a Pride in Sandhurst -

(The Story So Far)

Sandhurst Pride took its lead from one of many public consultation exercises carried out by the Sandhurst Town Council over recent years.

When asked, amongst other questions in 1999, "If you could change one thing in Sandhurst to make it a better place to live, what would it be?" residents could never have imagined what they would kick-start. The feedback from the surveys has helped guide a campaign which, since 2001, has developed into both a culture and council brand.

A cleaner, safer, greener community is what the residents wanted and that is what the Town Council endeavours to deliver.

Our first initiative was to develop our own Clean Team:

One part-time litter picker who travels around Sandhurst supplementing the Principal Authority street cleaning contractor. Locally based businesses part sponsor the operation and the Town Council has used the scheme for many litter awareness exercises. We now have a good rapport with Schools and Shops, who display the Sandhurst Pride logo in their shop windows. There are also car stickers for residents to advertise the brand image.

Enshrined within the Town Council's Policy and Mission Statement document under Civic Pride it states "Sandhurst Town Council will promote and assist others to promote pride in Sandhurst and in its heritage". Since those early days Sandhurst Pride has taken on many hats and crosses all boundaries of community life.
